About Me

I'm an IT Support and System Administration professional with hands-on experience in the textile industry. I spent two years working as a GT Issuer at Coats Bangladesh Limited. I do CCTV camera installation and maintenance. I'm comfortable troubleshooting hardware and software issues, setting up office networks, and handling Microsoft Office tasks like Excel sheets, Word documents, PowerPoint presentations, and Outlook emails. Alongside IT, I also have strong knowledge in cybersecurity and ethical hacking, which helps me keep systems secure.

I recently finished my BSc in Computer Science and Engineering from Uttara University (2022-2026) and I'm working on a research project called Unified Multi-Vulnerable Assessment Framework (UMVAF).

Technical Skills :

- IT Support & System Administration:
- Windows 10/11 installation, driver setup, and basic Windows Server
- Backup and recovery, antivirus management, malware removal
- User access control, printer and peripheral setup
- Hardware and software troubleshooting, system maintenance

Networking:

- TCP/IP, DNS, DHCP, HTTP/HTTPS, LAN/WAN
- Router and switch configuration
- Wi-Fi access point management, firewall basics

Microsoft Office:

- Microsoft Word: creating letters, reports, and official documents
- Microsoft Excel: data entry, formulas, pivot tables, inventory tracking, attendance sheets, and daily reports
- Microsoft PowerPoint: making presentations for meetings
- Microsoft Outlook: email management, calendar, and scheduling
- Google Sheets and Google Docs (alternative tools)

CCTV & Security Systems:

- CCTV camera installation, configuration, and maintenance
- DVR and NVR setup, remote viewing configuration
- Troubleshooting cable, power, and camera faults

Cyber Security :

- OWASP Top 10, SQL Injection, XSS, CSRF, IDOR, LFI
- Vulnerability assessment and web application security
- Security tools: Burp Suite, Nmap, Metasploit, SQLmap, OWASP ZAP, Wireshark
- Platforms: TryHackMe, Hack The Box
- Operating Systems: Kali Linux, Windows, basic Linux administration

Programming:

- Python, Bash, Java, C/C++, GoLang.

Work Experience :

- Gt Issuer (Store & Documentation) Coats Bangladesh Limited (Textile Company) | 2020 – 2022
- Managed store issuance, inventory tracking, and daily paperwork
- Used Excel for stock keeping, inventory reports, and attendance tracking
- Worked closely with the IT team for system updates and troubleshooting
- Learned factory operations, compliance, and how garments companies work
- Built strong communication and problem-solving skills

IT Support & Ethical Hacker (Practice & Labs)

- Self Practice | 2023 – Present
- Provide IT support: OS installation, driver setup, malware removal
- Configured small office networks with file sharing and printer access
- Perform web application penetration testing in lab environments
- Identify OWASP Top 10 vulnerabilities and security misconfigurations
- Prepare vulnerability reports with proof-of-concept and remediation steps

Projects :

- CCTV Installation & Maintenance (Live Projects)
- Installed and maintained CCTV cameras in offices and residential spaces
- Configured DVR/NVR, remote viewing, and motion detection
- Diagnosed and resolved cable, power, and camera faults

IT Infrastructure Setup (Practice Project) :

- Built a small office LAN with user access control and shared drives
- Set up backup schedules and antivirus policies
- Configured file sharing and printer access for multiple users

WordPress Malware Removal & Security Hardening :

- Removed malware, backdoors, and spam redirects from infected WordPress sites
- Cleaned malicious files and databases
- Implemented security hardening to prevent reinfection

Web Application Penetration Testing (Practice Project)

- Conducted reconnaissance and vulnerability scanning
- Tested common web vulnerabilities such as SQLi and XSS
- Documented findings and mitigation steps

Education :

BSc in Computer Science & Engineering (Completed 2022-2026)
Uttara University

Training & Certification :

Cyber Security & Ethical Hacking – Arena Web Security
Certificate verification ID : A59W0505S073

Research :

Unified Multi-Vulnerable Assessment Framework (UMVAF) – Ongoing
I'm working on a research project to automatically detect multiple types of web vulnerabilities. This improves my analytical thinking and problem-solving skills.

Other Things About Men:

- Strong IT support and system administration skills
- Hands-on experience with CCTV installation and maintenance
- Good at Microsoft Word, Excel, PowerPoint, and Outlook
- I understand how garments and textile companies work
- Cyber security background helps me keep systems secure
- I can troubleshoot and document things clearly
- I can join immediately if needed
